FOR SOLAR

EMERGENCY

ABOUT US

Dr. Solar is your trusted partner in the solar industry, specializing in comprehensive maintenance services for both B2B and B2C clients. Our mission is to ensure that your solar systems operate at peak efficiency, maximizing performance and longevity. We are committed to using the latest technology and best practices to provide exceptional service, fostering sustainable energy solutions for a brighter future.

OUR MISSION

To deliver top-notch maintenance services that enhance the efficiency and longevity of solar energy systems, ensuring our clients achieve maximum return on their investments.

OUR VISION

To be the leading provider of solar maintenance services, recognized for our commitment to quality, innovation, and customer satisfaction in the renewable energy sector.

Our Solutions

At Dr. Solar, we offer expert solutions to keep your solar system efficient and long-lasting. From quick check-ups to advanced optimization, we ensure your system performs at its best—always.

ON SPOT SOLAR INSPECTION

Quick on-site check of your solar system to identify performance issues, safety concerns, and risks—like a routine check-up by your solar doctor.

DETAIL REPORT GENERATION

A complete diagnostic report covering performance, component status, fault detection, and clear recommendations.

ADVANCED SOLAR SOLUTION

Tailored maintenance and optimization using advanced tools to boost energy output and extend system life and performance.

SOLAR PERFORMANCE MONITORING

Real-time tracking to ensure your solar system runs efficiently and detects issues early.

SOLAR PERFORMANCE OPTIMIZATION

Boost system output with expert tuning, cleaning, and technical adjustments for peak performance.

WIDE RANGE OF SERVICES

From cleaning to component checks, we offer complete care tailored to your solar system's needs.

Our Product

We provide high-quality solar products designed to improve efficiency, enhance durability, and extend the life of your solar plant—ensuring better performance every day.

ADVANCED SOLAR CLEANER

Our advanced solar panel cleaner removes dust and debris effectively, ensuring maximum sunlight absorption and higher energy output for your solar system.

UNIQUE FORMULATION (BIODEGRADABLE PH 5-7)
Safe, eco-friendly formula that protects panels while keeping the environment clean.

MACROMOLECULES BASED PANEL CLEANER
Designed with advanced molecules for effective and lasting solar panel cleaning.

UNIQUE ADVANCED FORMULATION
Our cleaner is specially designed and developed to maximize the solar panel's performance and durability.

LOW DUST ACCUMULATION
Creates a protective layer to reduce dust buildup and maintain peak output.

WHY CHOOSE US

AS A CUSTOMER

- For EPC or any type of solar services
- For hassle free solar maintenance services
- To monitor your solar performance and optimize it
- To Upgrade your solar plant
- To increase your energy generation

AS A B2B COLLABORATION

- To provide fast solar maintenance services
- Quick solar support
- No need to hire dedicated solar engineer
- To provide guidance to client within 24 hours
- To provide quality services to existing customers

AS A MANUFACTUREER

To deliver top-notch maintenance services that enhance the efficiency and longevity of solar energy systems, ensuring our clients achieve maximum return on their investments.
