About VOLTAH

A Leading Solar Solutions Provider Brand

Brand Overview

**AatmaNirbhar
Bharat Abhiyan**

Voltah, a flagship brand under Lobel Green Energy, stands as a leading manufacturer of advanced solar products in India. With a strong commitment and vast experience in renewable sector. Voltah specializes in high-performance solar inverters, solar panels, ACDB/DCDB distribution boxes and BOS. Backed by cutting-edge technology and deep industry expertise, Our solutions are crafted to meet the growing energy demands while reducing the carbon footprint of our country.

Our Vision

To establish Voltah as a globally recognized Indian brand in the solar industry by offering a wide range of high-quality, innovative products. We envision becoming a one-stop solution for all solar energy needs—delivering everything from advanced components to complete project execution. Our aim is to lead the way in making clean, efficient, and accessible solar power a global standard, proudly driven by Indian engineering and excellence.

Our Mission

To achieve a leading position in solar product supply across India's residential and commercial segments by delivering reliable, high-performance, and innovative solutions. We are also focused on expanding our presence in ground-mounted systems and IPP projects—building a strong foundation for long-term, sustainable growth and contributing to the nation's clean energy infrastructure with integrity.

Why Choose Us

-  Empowering Solar Industry Since 2009
-  Served More Than 16000+ Happy Customers
-  Highest Distribution Networks
-  Supplied More Than 1.8 Lac+ Solar Inverters

Smart Solar Inverters

VTI - 1.5 | 2.5 | 3.6 | 4.6KW

VTI - 5 | 5.4 | 6KW

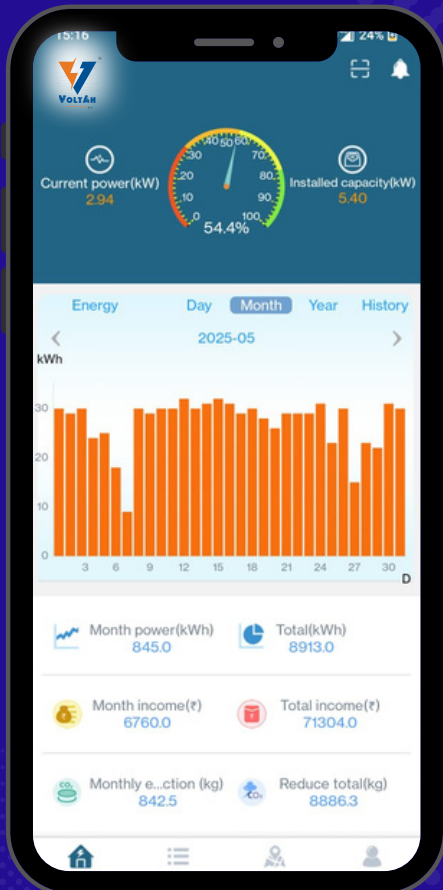

VTE - 5 | 6 | 8 | 10 | 12 | 15KW

VTE - 20 | 25KW

Single Phase Solar GTI - 3rd Gen'

Three Phase Solar Super GTI - 3rd Gen'

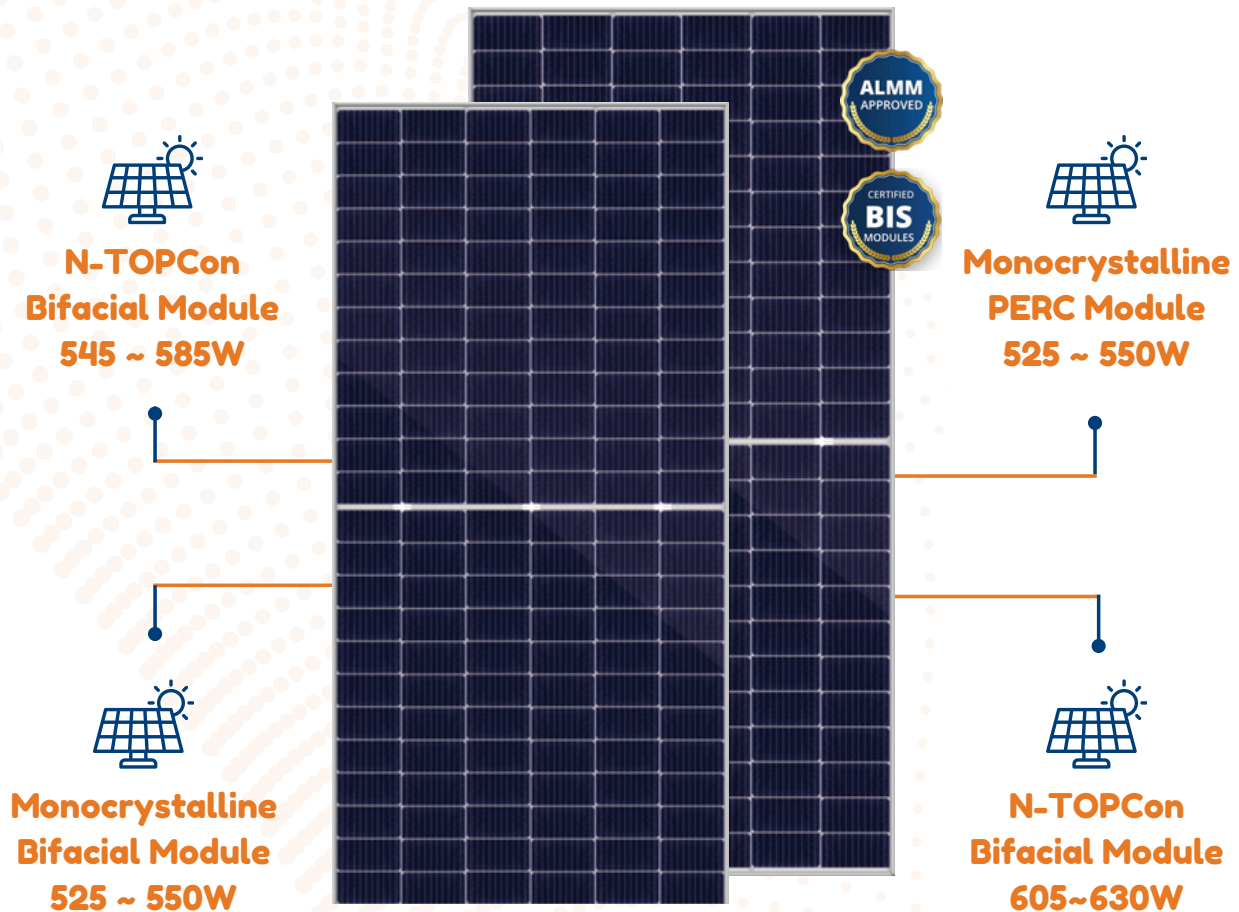

Smart Monitoring System With VOLT AH Mobile App

Monitor the performance of all your solar projects with ease using our smart monitoring server accessible through group or master admin login.

Advanced Support and Solutions

- Easy Warranty Claim Process
- Installation & Service Guidance
- CRM-Based Ticketing System
- Dedicated Support Helpline
- Remote Monitoring & Diagnostics
- Quick Repair or Replacement
- Real-Time Case Tracking
- On-Site Response
- Component Level Troubleshooting
- Direct Support to End-Users

Smart Solar Panels

Higher Power Output

Module power increases by 5–25% generally, bringing significantly lower LCOE and higher IRR. 0~5W positive tolerance output warranty.

Durability Against Extreme Environmental Conditions

High salt mist and ammonia resistance. Lower temperature coefficient and operating temperature.

ZERO LID

N-Type cell is characterized by “0” LID, which generates more power.

More Outstanding Low-light Performance

Higher power output even under low-light environments like on cloudy days.

PID Resistance

Excellent Anti-PID performance guarantee via optimized mass-production process and material control.

Enhanced Mechanical Load

Certified to withstand: wind load (2400 Pa) and snow load (5400 Pa).

Optimal Choice for Ultra-large Power Plants

Contribute to Lower BOS cost and LCOE.

EL Full Inspection

Three stage 100% EL Inspection warranting defect-free product.

#SmartDataMonitoring

Smart Solar Products

ACDB / DCDB

Smartly engineered ACDB / DCDB distribution boxes for single phase and three phase, ensuring safe and efficient solar power management. (MCB, SPD, Enclosures, Connectors)

Earthing Kit

Complete solar earthing solutions specially designed for long-term safety and your solar system protection. (Earthing Rod, Lightning Arrester, Insulator Chemical Bag)

Cables

High-quality certified solar cables (Tinned Cooper, XLPO, XLPE, E-Beam, FRLS, FRHR, PVC Insulated) built for seamless connectivity, durability, conductivity, and weather resistance.

“Battery-operated motorized solar mop with smooth wheel support.”

Industrial

Cleaning Span = 600 mm

Residential

Cleaning Span = 400 mm

Solar Glide Basic

Auto Schedule System

Set once, runs daily automatically

Automatic Charging

Self-charges after every cycle

Rooftop & Ground Mount Compatible

Versatile use

Reliable Daily Cleaning

Consistency with zero manual effort

Ideal for: Mid-size commercial and institutional solar plants

Solar Glide Pro

Ideal for: Industrial rooftops & small commercial sites

Mobile App Control

Monitor & operate via smartphone

Smart Alerts & Notifications

Stay updated in real-time

All BASIC Features Included

Automation + app control

Advanced Control System

Remote scheduling and diagnostics

Solar Glide Pro Max

Runs on Solar Power

Works directly using sunlight

Ideal for: Large-scale and utility solar installations

Extended Runtime

Higher efficiency with extra power

Sustainable & Energy Efficient

Zero dependency on grid

All PRO Features Included

Full automation & app control

LTE

30 Kg

Ultra Lightweight Body

IP 65

Ready For Weather Condition

Swappable Battery

For Non-Stop Cleaning

Runtime - Up To 5 hrs

Clean More, Charge Less

Plug & Clean

Switch On, and it Works !

Easy To Handle

Effortless to carry and operate
